C. PETRICK'S

CATALOGUE OF PLANTS

GHENT (BELGIUM)

To my Friends and Patrons,

I beg to tender my heartiest thanks for the continued and increasing patronage accorded to me and beg to assure my Friends that every exertion will be made on my part to justify their confidence.

The great success which has attended C. PETRICK'S exportations to all parts of the World has led to an immense encrease in this department of business, and he is fully prepared to execute orders for Plants to any extent.

It will be his constant endeavour and principle to supply first quality and to make prices as moderate as possible.

The greatest care and promptitude will as hitherto, be bestowed in executing orders and all will be packed in the best possible manner to insure safest arrival of the Goods and dispatched by the most expeditious route to any part of the Globe.

In preparing this Price List it has been my endeavour to make selections of such kinds of plants, that are most useful and most in demand. I shall with great pleasure procure and furnish prices of any articles obtainable in trade.

My aim has always been and will continue to be to give every satisfaction to the purchaser

My customers are requested to notify me instantly of any errors that may be committed in filling their orders, that I may at once make ample amends as I desire to conduct my business in all respects satisfactorily to those who favour me with their confidence.

If in any instance, my prices should be found higher than those of any other respectable house, I shall greatly esteem the opportunity of meeting them.

I shall be pleased to give Special quotation to those requiring large quantities.

In again thanking my numerous friends and patrons for their liberal support, and requesting the favour of their early command. I beg to subscribe myself.

Yours faithfully,

C. PETRICK.

Ghent, June, 1894.

AZALEA INDICA.

(INDIAN AZALEAS).

My Indian Azaleas are exceedingly fine this Season, and I do not exaggerate when I make the statement that it is the finest and largest stock we ever had in this country.

An idea of the excellency and extent of C. P. stock in this department can only be realised by a visit to his Nurseries.

All the leading kinds are grown in quantity many of them can be supplied by the hundred and thousand.

100 Azaleas in 20 à 30 sorts well set with buds .	fr. 100 - 125 à 150
	\$ 20 to \$ 30 = £ 4 to £ 6
100 Azaleas of larger sizes.	fr. 200 - 250 à 300
	\$ 40 to \$ 60 = £ 8 to £ 12
Extra strong plants	fr. 5 - 6 - 8 à 50
	\$ 1 to \$ 10 = £ 4/ to 40/ each.

C. Petrick will be happy to forward at any time on application, a special quotation for large quantities, also of his half specimen and specimen of which he holds a splendid stock.

AZALEA MOLLIS

Azaleas mollis is a native of Japon and undoubtedly one of our most beautiful shrubs for forcing, or planting in groups or borders in Parks or Gardens. The flowers are larger and of more perfect form than those of the *A. pontica* varieties, and resemble in form and size those of the Indian *Azaleas*. Their gorgeous colors vary from yellowish white, rose, all shade of yellow to the richest orange.

LAURUS NOBILIS

(Sweet Baies, Laurels).

This highly ornamental trees are grown with us in large quantities. There are two varieties in cultivation, the best variety is generally called the true one and the other variety

the common one. They are easily distinguished one from the other by their foliage. The true one which is the only recommendable sort has leaves of medium size with undulated margin, whilst the common sort has large leaves and almost quite smooth on the surface. Up to this day most of the Laurel trees were bought by Germany but for the last four or five year, there has been, although unimportant a steady increasing demand from the United states and England.

PALMS

SELECTION OF THE MOST USEFUL KINDS.

The Palms take the first place amongst the number of decorative plants. In fact to recommend so ornamental and generally useful a class of plants, would be almost superfluous. There is no genus of plants, that is so admirably adepte for decoration of any discription and can give se rich and tropical an appearance as Palms. Without them no decoration seems complete.

Having a very extensive stock of saleable plants C. PETRICK is in a position to make special quotations to those requiring large quantities, in which case a considerable advantage will be offered the purchaser.

The following sorts are grown in large quantities and can be supplied by the hundreds and thousands.

Areca Baueri.

A very fine and strong growing Palm.

Fine plants about 3 feet high 250 fr. per 100 = \$ 50 per 100.

Larger sizes 300—400—500 fr. per 100 = \$ 60 to \$ 200 per 100.

Fine specimen 15—20—25 to 50 fr. each. = \$ 3 to \$ 10 each.

Areca lutescens.

This is the most beautiful and useful kind amongst the *Areca*s. I have a large stock of fine plants, three to eight in one pot, to get will furnished and bushy plants.

I can do them according to size 200 to 1500 fr. = \$ 40 to \$ 300 per 100.

Extra large plants from . . . 20 - 25 - 30 - 35 - 40 to 50 fr each.

\$ 4 to \$ 10 each.

*Areca lutescens.**Areca sapida.*

After *A. lutescens*, *A. sapida* is considered the most useful *Areca*. They stand well a cool temperature and are not easily broken by handling or knocking about in decorations.

Fine plants. . 100 to 500 fr. per 100 = \$ 20 to \$ 100.

Large plants . 10-15 to 30 fr. each. = \$ 2 to \$ 6 each.

Chamærops Fortunei.

For outdoor decoration. It stands a light frost without injury.

Strong plants . 10 to 100 fr. each = \$ 2 to \$ 20 each.

Smaller plants . 100 to 800 fr. per 100 = \$ 20 to \$ 160 per 100.

Chamærops humilis.

This is like the former very hardy.

I can do fine strong plants from 10 to 50 fr. each. = \$ 2 to \$ 10 each.

Cocos flexuosa and *Romanzoffiana.*

Are two very useful kinds for general decorative purposes.

Fine plants according to size from 3 to 15 fr. each = \$ 0,60 to \$ 3 each.

Cocos Weddelliana.

Known as the most graceful of all the smaller Palms. It has all the good qualities, it lasts or stands well in a room, it is the handsomest for table decoration or jardinière and after all it stands all kind of treatment, wet and dry, hot and cold.

Nice plants from 100 to 500 fr. per 100 = \$ 20 to \$ 100 per 100.

Extra large plants 10 to 25 fr. each, = \$ 2 to \$ 5 each.

Corypha australis.

Fine plants from 150 to 500 fr. per 100 = \$ 30 to \$ 100 per 100.

Kentia Balmoreana.

The Kentia is undoubtedly one of the toughest and most durable amongst Palms. They are very handsome and of remarkably graceful appearance. Their grandeur and grace renders them unrivalled as a decorative plant.

Of this noble Palm I have a large stock of all sizes and can supply them at very moderate prices.

Well furnished plants from 200 to 1000 fr. = \$ 40 to \$ 200 per 100.

Larger plants 15-20-25-30 fr. each, = \$ 3 to \$ 6 each.

Extra sized plants 40 to 400 fr. each, = \$ 8 to \$ 20 each.

Kentia Balmoreane.

Kentia Forsteriana.

In habit somewhat resembling the preceeding kinds, but more robust in its habit of growth, the leaves are broader in all their parts and darker in color.

Fine strong plants, 200 to 1000 fr. = \$ 40 to \$ 200 per 100.

Larger plants and specimen, 15 to 100 fr. = \$ 3 to \$ 20 each.

Latania Borbonica.

This is undoubtedly one of the grandest Palm in cultivation. Their fan-shaped leaves are most effective and characteristic in all kind of decorations. It is a plant that stands well the change of temperature, the prices are proportionnally very reasonable, consequently attainable for every purs.

Phœnix canariensis (tenuis).

The Date Palms in general are very hardy or durable, some kinds and principally the above stand a light frost without injury.

Fine large plants from 500 to 1000 fr. = \$ 100 to \$ 200 per 100.

Extra sized plants from 15-20-25 to 150 fr. each. = \$ 3 \$ 50 each.

Phœnix reclinata.

According to size 150-200-300 to 500 fr. = \$ 30 to \$ 100 per 100.

Larger plants 10 to 25 fr. each = \$ 2 to \$ 5.

Raphis flabelliformis.

A beautiful companion plant to *Kentias*. They will stand any amount of knocking about, cold and heat, wet and dry without much injury. It is just the Palm we want for decorating.

Strong plants, well furnished 800 to 1000 fr. = \$ 160 to \$ 200 per 100.

Extra large plants 15 to 25 fr. each = \$ 3 to \$ 5 each.

Specimen 35-50-60-75 to 100 fr. each. = \$ 7 to \$ 20 each.
